

SECOND DEGREE BURN TREATED WITH PRINCIPELLE IF OINTMENT, MELMAX AND PRINCIPELLE MATRIX

t=0

01-02
Male (age 35)
presents second
degree burn.

Treatment with
Flamazine and fatty
gauze is not
satisfactory.

07-02
Treatment with
antibacterial
Principelle IF
Ointment and
MelMax 08x10 cm,
covered with
Principelle Matrix to
absorb excess
wound exudate.

19-02
Patient shows
progressive
improvement after
12 days (2 dressing
changes).

Wound is closed
and skin is in
remodeling stage.

t=37 days

10-03
Skin was kept
flexible with a third-
party skin cream to
allow for smooth
recovery.

Wound fully healed
without loss of
function, side effects
or scarring.
