

Comfortex Landing Strips

Flammability Resistance and Retardancy of:

Comfortex Landing Strips were tested at Twin City Testing Corporation, Stork Materials Technology, November 3, 2003, according to California Technical Bulletin 116, "Requirements, Test Procedure and Apparatus for Testing the Flame Retardance of Upholstered Furniture". Products passed CA116.

In addition, all component materials used in the Landing Strip individually pass or exceed the CA117 Flammability Code requirements for healthcare facilities.

If any further questions, or you wish to receive a copy of complete test results, contact Comfortex at 1-800-445-4007.

Thank you!
